

## Billing Wyoming Medicaid for Dually Eligible Members

Wyoming Medicaid has become aware that providers are not following Medicaid's policy regarding dually eligible (Medicare and Medicaid) members.

### BILLING REMINDERS:

- Wyoming Medicaid requires taxonomy codes to be included on all Medicare primary claim submissions for billing, attending, and servicing or rendering providers. Medicaid requires these taxonomies to get to a unique provider.
  - Medicare is primary to Medicaid and must be billed first.
  - When posting the Medicare payment, the EOMB may state that the claim has been forwarded to Medicaid.
    - No further action is required; it has automatically been submitted.
  - Medicare transmits electronic claims to Medicaid daily.
    - Medicare transmits all lines on a claim with any Medicare paid claim.
  - **If payment is not received from Medicaid after 45 days of the Medicare payment, submit a claim to Medicaid and include the Coordination of Benefits (COB) information in the electronic claim.**
    - The line items on the claim being submitted to Medicaid must be exactly the same as the claim submitted to Medicare.
- Exception:** When Medicare denies, then the claim must conform to Medicaid policy.
- The time limit for filing Medicare crossover claims to Medicaid is 12 months (365 days) from the date of service, or six (6) months (180 days) from the date of the Medicare payment, whichever is later.

### NOTES:

- Do not submit a claim to Medicaid for coinsurance, deductible, and copayment amounts unless the provider has waited 45 days from Medicare's payment date.
- Do not submit a "new" claim to Medicaid when the Medicare claim needs to be adjusted, (i.e., excluded a modifier).
  - This may result in duplicate payment to providers.
  - When providers receive a duplicate payment, they must determine the mistake and also make the necessary corrections to remedy the situation.

### WYOMING MEDICAID PROVIDER MANUAL POLICY REFERENCES (ALL MANUALS):

- Chapter & Section: 3.2.2.2 Provider Taxonomy Requirements When Billing Medicare for Dually Eligible Members
- Chapter & Section: 6.5.2 Billing Information (Medicare Crossovers)
