

## Durable Medical Oxygen Suppliers

Effective January 1, 2018, the Wyoming Department of Health (WDH) was required to comply with the Consolidated Appropriations Act of 2016 (section 503) and the 21<sup>st</sup> Century Cures Act (Section 5002) which limits federal Medicaid reimbursement to states for Durable Medical Equipment (DME) to Medicare payment rates.

Wyoming Medicaid must reimburse the Centers for Medicare and Medicaid Services (CMS) anything above the DME Medicare code rate, which is generated by the Medicare's Pricing, Data Analysis and Coding (PDAC) contractor, and includes Medicare utilization for those same codes.

WDH has been reviewing the Medicare rates and data from the last three years to determine if Wyoming oxygen rates are appropriate. Other rural states' rates have also been reviewed. It was found that Wyoming oxygen rates are the highest in the region, and in some cases, up to three times higher than other states.

In 2021, Wyoming Medicaid began decreasing the rates to comply with Medicare rates, while still providing access to care for members. Below are the rates that were impacted and the rates that will be updated as of July 1, 2022:

<b>HCPCS Code</b>	<b>Current Rate</b>	<b>New Rate</b>	<b>Medicare Rate</b>

Wyoming Medicaid has also updated rates for the incontinence codes and established rates for T4543 and T4544. You will no longer need to send in an invoice for these two codes.
