

Condition Code Update

Attention Home Health Providers:

Condition codes are designed to allow the collection of information related to the patient, particular services, service venue, and billing parameters which impact the processing of an Institutional claim.

Some examples of this information are as follows:

- Employment status
- Qualified clinical trial
- Same day transfer
- Home care giver available
- Cost outlier
- Pregnancy indicator

Note: These codes are integral to the Institutional claim, both the UB and the electronic 837I claim file.

When billing Wyoming Medicaid for members who have Medicare primary, the following Medicare information must be reported on the claim:

- Applicable value codes
- Occurrence codes
- Occurrence span codes
- Claim adjustment reason codes (CARCs)
- Remittance advice reason codes (RARCs)
- Condition codes
- Claim filing indicator
- Revenue codes
- Source codes
 - XA - Condition Stable
 - XB - Not Homebound
 - XC - Maintenance Care
 - XD - No Skilled Service

In the patient's medical records, it should state why the member does not meet the requirements for Medicare payment (Medicare is not applicable) as the member is homebound.

Deployment Information

Deployment Date: February 13, 2023

Audiences: Home Health
